# Counter-Top Safety Shields

Our Counter-Top Safety Shields are essential to the changing nature of businesses moving forward. As we all move to embrace physical distancing, safety is our priority.

We manufacture a series of safety shields to suit your space and needs.

Made of a premium plastic material called Polycarbonate, our shields will maintain their quality. These shields can be cleaned with any disinfectant.

If you are unable to find a solution within these pages, please feel free to reach out to us for a custom solution. We can design and manufacture to your specifications with short lead times and quality results!

# Counter-Top Safety Shields

#NUF10812-A01  
Standard Folding Counter Shield

48" w x 10" d x 30" h  
(centre panel is 28" w, each side is 10" w)

This hinged counter shield uses a strong double-sided, non-marking tape to secure in place. The hinges are adjustable to maximize the shield's capability fit to your desired space.

Made of 1/8" Polycarbonate, boxed in sets of 2.

#PN9201  
Small Folding Counter Shield

36" w x 10" d x 30" h  
(centre panel is 16" w, each side is 10" w)

This hinged counter shield uses a strong double-sided, non-marking tape to secure in place. The hinges are adjustable to maximize the shield's capability fit to your desired space.

Made of 1/8" Polycarbonate, boxed in sets of 2.

#PN9202  
Freestanding Counter-Top Shield

36" w x 8" d x 30" h

This freestanding unit can be easily relocated and rests easily on any counter or table top surface. Made of 1/4" acrylic, this unit can be cleaned with no residue or damage to the material itself.

This unit ships flat and is assembled in place.

# Permanent Counter Barriers

Detail view of post base with clip

Detail view of post top

For a more permanent solution, we offer complete glass barriers, ideal for medical counters and businesses that prefer a lasting solution.

This barrier system is completely modular, allowing you to customize it to your space.

The basis of this system is a series of upright posts with 1/4" thick tempered glass panels that are secured in between them. These posts screw directly into your counter top or can be attached with a high adhesive permanent tape for the most secure connections.

There are a number of different versions of these posts, allowing you to create corners and angles for added versatility.

If you require a custom version of this system, we can design and manufacture to your specifications with short lead times and quality results!

# Freestanding Safety Dividers

We have designed and manufactured a series of freestanding solutions to act as safety dividers and distancing screens. We also provide custom solutions for your specific requirements

These safety dividers are available in 3 different formats; permanent solutions that screw to existing surfaces, semi-permanent solutions that rest flat on the floor and mobile solutions on wheels.

Combining sturdy steel frame and support elements with durable clear polycarbonate, these units ship knock-down for easy assembly.

A custom freestanding solution created by PragerNuform for RBC

These units are perfect for self-checkouts, banks, casinos, pop-up retail events and office settings

Floor Mount Safety Shield

# Freestanding Safety Dividers

#PN9401  
Floor Mount Safety Shield

48" w x 6" d x 72" h

This freestanding unit is mounted directly to the floor with screws and uses a 1/8" thick polycarbonate panel.

This unit is fully welded for added strength.

Finish: Epoxy Coat Black

#PN9402  
Two Tier Floor Shield

60" w x 14" d x 72" h

Slide in 1 or 2 (1/8" thick) polycarbonate panels to complete the shield.  
(Shown with optional pass through upper panel)

\*Available with wheels or levellers to suit your needs.

This unit can ship knock down or fully welded for added strength.

Finish: Epoxy Coat Black

# Distancing Decals

#PN9501  
Square Distancing Decal

16" x 16"

These distancing decals are made of a non-slip high adhesive vinyl that is easily removable.

# Safety Station Sign holder

Front:  
Hinged box for anti-bacterial wipes  
& Refuse container

Back:  
Automatic sanitizer dispenser

#PN9601

Safety Station Sign holder

22" w x 18" d x 65" h

This signholder doubles as a safety station. Able to hold your standard 22" x 28" marketing, there is an additional channel welded to the top for all COVID-19 related messaging, ideal for 1/4" material.

This safety station is double sided: One side holds an automatic sanitizer dispenser and the other holds 2 containers of wipes and provides a small garbage bin for refuse.

These items are contained within a sheet steel bin, hinged at the top and plated satin chrome for ultimate durability.

This unit comes knock-down for cost effective freight and easy assembly.

Finish: Satin Chrome with a wood laminte insert.

As this signholder is manufactured locally, we are happy to work with you on a custom solution to suit your needs! Please contact us for more information.

# Waiting Room Dividers

Our safety divider system is ideal for medical offices and waiting rooms of all types.

Available in single freestanding dividers and a modular system that can be used in open spaces, these dividers are a versatile solution.

Using frosted, corrugated plastic, the dividers provide privacy while ensuring light can pass through.

This durable material can be cleaned with all liquid disinfectants with no residue or material wear. The divider panels are available in two standard widths, 24" or 30", allowing for numerous configurations based on your needs. This system ships flat and is easy to assemble on site, requiring no tools.

Our divider system can be customized to your space, please contact us for more details or custom options!

# Waiting Room Dividers

#PN9701-24 Single Freestanding Divider  
Includes slide in plastic panel. (Satin Chrome)  
\*Base style subject to change based on your final design
